

Pipe On Pipe Treatment

“Previously used another lube but i’ve never seen a POP perform like this product. We cleared all the plugs and it made a huge difference in our bottom line!”
- Major Operator/ Bakken, November 2014

Helps Mill All Plugs!

This Pipe on Pipe Treatment is the next evolution in coil tubing lubrication. Powered by our exclusive technology, this positively charged molecule structure bonds to metal, optimizing lubrication.

It has a film strength 50 times more powerful than conventional pipe lubricants, withstanding more than 200,000 psi of pressure! This reduces the coefficient of friction between the coil tubing and casing.

ADVANTAGES

- Attracted to Hot Spots
- Withstands High Heat (beyond 600°F)
- Reduces Pipe on Pipe Friction
- Unprecedented Film Strength (over 200,000psi)
- Water Dispersible
- Helps Increase WOB
- Personnel Friendly - Non Toxic
- Environmentally Friendly

BENEFITS OF USE

- Drill/Mill frac-plugs
- Lubricates the entire casing and CT BHA thereby increasing lateral reach

Number	Size
50005	5 gallon/18.9L
50275	275 gallon tote

TREATMENT

- Standard Usage - 1 gallon per 1,000 gallons
- Deviated Well - 2 gallons per 1,000 gallons

This product can be easily dispersed and may be added via a hopper directly into the active system or through pre-mixing.
